

DATACARD® TRUCREDENTIAL™ PLUS SOFTWARE

TruCREDENTIAL™
SUITE

THE RIGHT FIT FOR YOUR NEEDS

Entry-level or enterprise-wide, Datacard® TruCredential™ Suite offers an edition that's just right for you — now and in the future.

Basic, secure ID card issuance

- *TruCredential Express software:* Basic photo capture and data import, credential designer, and drag-and-drop workflows for a single-user environment.
- *TruCredential Plus software:* Signature capture, DSLR camera support, report capabilities, composite field support and SQL server support.

High-assurance credential issuance

- *TruCredential Professional software:* Smart card support, decentralized data capture, centralized data management, Microsoft Active Directory integration support, Oracle database support and document scan capture support.
- *TruCredential Enterprise software:* Additional PACS and access control system integration support, PeopleSoft HR system integration support and higher scalability up to hundreds of user stations.

Take Your ID Card Issuance Program to the Next Level

As your card issuance program becomes more sophisticated, Datacard® TruCredential™ Plus software gives you more capabilities. With simple data import and data-driven production, you can capture personal information, photos and signatures. Plus, you can personalize and design ID cards with complete ease. Built for a single-user environment, it offers pre-built workflow and card design templates to streamline your operations and simplify your production. When your needs grow, you can easily scale up to another edition in the TruCredential Suite family to get even more functionality — with less complexity.

User-friendly, web-based platform. This next-generation ID software integrates our proven global software into one modern and intuitive platform. Our feature-rich platform delivers all the tools you need — including pre-built drag-and-drop workflows for configuring cards and card design templates — to design, issue and manage all of life's important credentials.

Enhanced security, more capabilities. Easily issue credentials with security features — magnetic stripes, QR codes and bar codes — while expertly managing image and signature capture and printing.

Easy, economical scalability. Protect your investment as your program evolves. You can scale up seamlessly to another edition within the TruCredential Suite to get smartcard support, integrate with other systems and applications, and take your issuance program enterprise-wide.
