Enter your final card options from check boxes above. Example: 2000HPGGNN

Final Part Number		-	(Options #)
--------------------------	--	---	--------------------

Y = iCLASS Programming
 12345 = Card ID Number
 YYYYYYYY-YY = Sales Order Number

iCLASS Card Programming Information

Format Number _____ (example: H10301) Bit Numbers _____ (example: 26 bit) Facility Code _____

Encoded Card # Start _____ Stop _____ Printed Card # Start _____ Stop _____

HID Elite ICE Number (if applicable) - _____ (Custom Format) Site Code _____ City Code _____ OEM Code _____

PIN (2-12 digits): Sequential: Start # _____ Random: Length # _____

Special Instructions: _____

¹ Secure Identity Object (SIO) Programming is not mandatory but highly recommended. If SIO programming is not selected the letter H should be left out from Final Part Number, for example: 2000PGGNN

² For new artwork files, contact Customer Service for custom artwork number, lead-times, and cost.

³ Cards ordered with plain white front and back packaging, or custom artwork, will still have a small HID logo and reference number printed in the lower left-hand corner and a slot punch target printed on the back of the card.

⁴ The Printed card number is placed in the bottom right-hand corner on the back of the card.

⁵ For Laser Engraved Printed numbers, consult factory for lead times and cost.

⁶ Cards are provided with an optional slot punch at no additional charge. Some video imaging printers cannot accommodate pre-slot punched cards.

⁷ The ability to add a horizontal slot punch requires a different iCLASS antenna design. Users can expect a read range reduction of approximately 20% if they order option H for the Slot Punch.

⁸ Please note that cards shipped within North America are always laser-engraved. Inkjetted option is not available for these cards.

* The composite construction is recommended for all cards with over-laminate applied. Consult with the printer manufacturer prior to ordering.
